Summary

Front-end developer with over 2 years of experience, specializing in **Vue.js**, **React.js**, and web technologies. Responsible for building **systems** and **websites** that boosted company productivity, as well as developing **tailored solutions** for diverse clients. Contributed to projects in sectors such as real estate and securitization, integrating APIs and creating intuitive interfaces.

Work Experience

Sixchains Digital House | Front-end Developer - July 2022 – May 2024

A company specializing in custom systems and website creation. Key projects I worked on include:

➤ Mos Consultoria | February 2024 – May 2024

- Implemented a **scheduling system similar to Google's**, which **boosted administrator productivity** by replacing manual processes.
- Developed a system for **3 distinct types** of users and created the corresponding website.
- Created a **comment platform within the system**, enhancing user interaction and feedback.
- **Stack:** Vue.js | Nuxt.js | Vuetify | JavaScript | HTML5 | CSS3 | Tailwind | Git | API REST | Websocket

➤ CabComex | December 2023 – January 2024

- Created an internal **system** for registering **user** and **company data**, integrated via **API**.
- Developed a **module** to manage **company deposit** records.
- Implemented a **branch registration** feature, optimizing the **management** of companies with **multiple units**.
- **Stack:** Vue.js | Nuxt.js | Vuetify | JavaScript | HTML5 | CSS3 | Tailwind | Git | API REST

➤ Euro Securitizadora | October 2023 – November 2023

- **Integrated an API to automate income reporting**, simplifying tax declaration for all employees.
- Implemented **multiple contract transfer functionality** for other users within the platform, eliminating the need for manual processes.
- **Improved system security** by fixing critical issues such as content security policies.
- **Stack:** Vue.js | Nuxt.js | Vuetify | JavaScript | HTML5 | CSS3 | Tailwind | Git | API REST

➤ Sixchains Digital House | January 2023 – September 2023

- Developed the **company website**, focusing on **Google ranking** and **user behavior monitoring** using tools such as **Hotjar**, **Google Search Console**, and **Google Analytics**.
- Improved **site visibility**, reaching the **15th position on Google** for the keyword "digital house".
- **Significantly increased visitor numbers** compared to the previous site, as reported by Google Analytics.
- **Stack:** Vue.js | Nuxt.js | Vuetify | JavaScript | HTML5 | CSS3 | Tailwind | Git

Skills

Vue.js | Nuxt.js | Vuetify | React.js | Material UI | Styled Components | JavaScript | TypeScript | HTML5 | CSS3 | Tailwind | Bootstrap | SASS | Jest | Unit Testing | Cypress | Node.js | .NET Framework | C# | Java | Firebase | Git | CI/CD | SEO | API REST | Agile Methodologies

Education and Languages

- **Bachelor's Degree in Computer Science** | Universidade Cidade de São Paulo (2019 - 2022)
- **Japanese** | Eleven years living in Japan
- **Portuguese**
- **English**
